Award Criteria: This award is given to a forensic nurse actively engaged in forensic nursing leadership, practice, service, and/or education. Forensic nurses nominated for this award demonstrate significant achievement in advancing forensic nursing through endeavors that help improve health and legal outcomes in patients affected by trauma, violence, and maltreatment. Activities include the delivery of exceptional, evidence-based, high quality patient care; transformative leadership practices; advancement of the specialty through professional service contributions; and/or engagement in the development and delivery of quality forensic nursing education.

Provide a detailed description pertaining to the contributions this nominee has made in relation to being recognized for this award.

By signing below, I verify that the information included on this application is complete and accurate. I understand that failure to provide the requested information or if any information supplied on this application is proven false, the nominee will be denied consideration for the award.
